

◆Function

Washing

Spray water through nozzle to ensure cleanliness of the buttocks.

Bidet

Design specially for women's daily hygiene, washing meticulously, preventing the infection of bacterium, etc.

Moving

The product has a "move" function for not only the anus washing but also the bidet washing with the twin nozzle to heighten the washing effect.

Massage

The regular change of water pressure has the massage effect. It can be operated during washing.

Washing position adjustment

Washing and bidet nozzle can be adjusted to the desired location, so that the user does not have to move his/her body.

Warm seat

The toilet temperature is controlled with a max temperature of 42°C (step 4) and is convenient in the cold winter months.

Warm wind

The product blows warm air to dry buttocks after washing.

Deodorization

Odors are reduced and removed when air passes through the deodorant filter.

Soft seat

With the hydraulic damper control design to make soft closing, it is effective in preventing the excessive impact and preventing the noise and damage.

Seat sensor

The product works only when the user sits on it and automatically stops when the user stands, therefore, it is easy and safe to use.

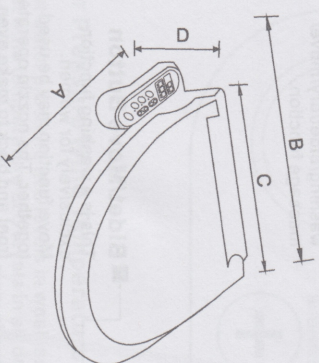

Self cleaning

Retracted nozzle sprays water on itself automatically after complete usage to help maintain clean state of product.

Energy saving
